STEP 6: Online System Tips – Please read the following list of tips that will assist you in completing your online applications.

- The **character counter** includes spaces as well as characters.
- A user will be **automatically logged out** of the online system after 90 minutes of inactivity. The user will receive a warning message at 80 minutes of the pending time out. Working on a form without saving does not count as activity.
- **You may choose to prepare a response in a document outside of the online system** (e.g. Microsoft Word) and then copy and paste the text into the online form. If you prepare your application in this way, be sure to keep track of character limits. As noted above, character limits include spaces and characters. We recommend that you do not use formatting tools, as available in Microsoft Word, because the formatting will likely not transfer to the response area when pasted into the online system.
- **It is advisable to download copies of all submitted forms to your computer** via the PDF print packet button available at the top of every form page.
- If you do not provide an answer for one of the **required questions**, you will not be able to submit your application.
- **If your PDF upload file exceeds the maximum file size**, consider using the Adobe Acrobat option to "Reduce File Size".
- Remember that clicking on "**Save**" will allow you to continue to edit your form. Click on "**Submit Form**" when you are completely finished.
- **Once your application has been submitted, it is no longer available for editing.** If you need to make a correction to a submitted form, contact our office at 828-437-7105.
